

SOLIDARITY MESSAGE

FROM **ARISENIGERIA** TO ALL NIGERIANS AT:

The “Enough is Enough” March

Friday January 15, 2010.

Venue: Parliament Square Westminster, London & the Nigerian High commission, Westminster, London.

Fellow compatriots and friends of Nigeria gathered at this chapel of freedom on this cold and rainy wintery afternoon, we would first have to salute your determination to come together for the common good of our beloved country.

This year marks the 50th year of our independence from the colonial masters and 50 years on, our country continues to stumble from one bad leadership to a worse one.

A tiny segment of the population of this country about 150 million people has since independence constituted themselves into a ruling cabal that has done everything but lead the country. This group have elevated corruption by every known definition in politics, government and even in the private sector. For a country with such great potential, Nigerians are today classified as amongst the poorest in the world, despite the huge wealth of

petrodollar flowing into the country. Monies that would have completely transformed our national infrastructures and lay a solid foundation for our country to become self reliant and become joint contributor to world prosperity has now been converted to personal wealth stashed mostly away in foreign bank accounts.

The losers are the Nigerian people and other Africans who would otherwise have been beneficiaries of a strong and prosperous state, strong enough to support and be an example to others. Today over half of the population lives below the poverty line – talk of suffering in midst of plenty!

Our call to all Nigerians and friends of Nigeria is simple. Please do not believe that you can do nothing about it, because you can help free our country from the oppressive and corrupt internal colonisers who call themselves leaders even when they know that they were not voted into office. They therefore do not have the peoples mandate to lead, because many of these people rigged their way into offices.

The greatest need of the Nigerian Nation today is leadership and Nigeria urgently needs to be governed by her first eleven, by her very best in character, wisdom, zeal for excellence and the physical strength needed to cope with the call of

duty at all times. And you can help make this possible. Not through aid, no; but through joining forces with Nigerians to create a new order in national politics.

How can you help?

Visit our website www.arisenigeria.org and:

1. Join us in pushing for electoral reform in Nigeria
2. Volunteer as we raise teams to begin grass root mobilisation for “newpolitics” in Nigeria. Politics that is truly people led and people centred, devoid of the present destructive influence of godfatherism, thuggery, and all forms of electoral corruption.

Thank you.

God Bless Nigeria.

God Bless the United Kingdom.
